

DANIEL QUIGLEY

Linguistics and Artificial Intelligence PhD Candidate | dquigleydev@gmail.com | (414) 335-2754
dquigley.dev | github.com/deltaquebec | linkedin.com/in/quigley-daniel

EDUCATION

University of Wisconsin-Milwaukee

Milwaukee, WI

PhD: Linguistics | Artificial Intelligence | Computer Science

2025

- Interdisciplinary PhD research across linguistics, computer science, logic, and mathematics
- **Advisor:** Nicholas Fleisher

University of Wisconsin-Milwaukee

Milwaukee, WI

MA: Linguistics

2023

- Interdisciplinary MA research across linguistics, computer science, logic, and mathematics
- **Advisors:** Nicholas Fleisher and Hamid Ouali (Linguistics) | Susan McRoy (Computer Science)

Universiteit Utrecht

Utrecht, The Netherlands

MSc Certificate: Theoretical Physics

2019

- Interdisciplinary Graduate Honors recipient
- Completed Master's coursework in Theoretical Physics and Mathematics

University of Wisconsin-Madison

Madison, WI

BSc: Anthropology | Astronomy | Linguistics | Mathematics | Physics

2018

- Record holder for number of majors
- **Advisors:** Stefan Westerhoff (Physics, Astronomy, Mathematics) | Monica Macaulay (Linguistics) | J. Mark Kenoyer (Anthropology)

PHD RESEARCH

University of Wisconsin-Milwaukee

Milwaukee, WI

Theoretical Linguistics | Mathematics | Artificial Intelligence | Natural Language Processing

Aug 2020 – Current

- Conducting research in interpretable neuro-symbolic artificial intelligence and natural language processing on problems in natural language understanding, knowledge representations, and semantic representations.
- Proving morphisms between intensional semantics and vector space semantics using model-theoretic, group-theoretic, and category-theoretic frameworks.
- Developing first- and second-order logic representations for intensional semantics in the context of category theory.
- Designing algorithms and computing their space and time complexities to facilitate interpretable language processing for logical reasoning tasks.
- Exploring theoretical foundations in the context of graph and group theory to explain model architectures for deep neural networks.

MA RESEARCH

University of Wisconsin-Milwaukee

Milwaukee, WI

Theoretical Linguistics | Mathematics | Artificial Intelligence | Natural Language Processing

Aug 2020 – May 2023

- Designed and proved PSPACE-hard algorithms for language processing based on extensional and intensional semantics.
- Proved homomorphism between discrete intensional semantics models and vector space semantics.
- Derived tensor forms for semantic representations in hyperbolic spaces.

MSC RESEARCH

Universiteit Utrecht

Utrecht, The Netherlands

Theoretical Physics: Graduate Interdisciplinary Honors

Aug 2018 – Jul 2019

- Completed coursework in Theoretical Physics, with a focus on high energy physics, cosmology, and gravitational physics.
- Completed coursework in Mathematics, with a focus on differential geometry, geometric partial differential equations, and geometric flows.
- Applied scientific expertise to interdisciplinary applications across multiple departments, including presenting independent research on geography and climate science to colleagues in the honors seminar.

BSC RESEARCH

University of Wisconsin-Madison

Indus Valley Civilization Undergraduate Researcher

Madison, WI

Oct 2015 – May 2018

- Reconstructed broken strings of written data from the Indus Valley Script using n -gram Markov chains and conditional entropy, and applied statistical analysis techniques to analyze the data using Python.
- Collaborated with international colleagues to analyze the Indus Valley Script data, resulting in the creation of sign frequency scores that showed the context in which different symbols were used.
- Presented results at an international academic conference.

University of Wisconsin-Madison

Wisconsin Baldwin Idea Grant Project Assistant

Madison, WI

Oct 2014 – May 2018

- Worked with Menominee elders and coordinated with team of undergraduate students, graduate students, and academic advisor.
- Recorded, documented, and prepared teaching materials for language preservation and revitalization efforts.
- Results of work integrated into Menominee reference grammar (to be published).

Wisconsin IceCube Particle Astrophysics Center

High Energy Astroparticle Physics Research Assistant

Madison, WI

Oct 2014 – May 2018

- Designed and implemented simulations, data acquisition systems, and visualizations for HAWC (High-Altitude Water Cherenkov) gamma-ray detector.
- Resolved discrepancies in gamma-ray results across four international experiments; wrote GPS data system using ZeroMQ in C++.
- Communicated results of simulations and technical developments with international teams, demonstrating strong collaboration and communication skills.

INTERNSHIP EXPERIENCE

Institute for Pure and Applied Mathematics - Fujitsu Limited

Graduate Researcher

Sendai, Japan

Jun 2024 – Aug 2024

- Mathematics research in interpretable artificial intelligence, developing an enhanced view of explanations of causal discovery AI
- Developing user interface of causal discovery AI
- Designing mathematical modeling, evaluation, and explanatory methods for model discoverability and likelihood of convincing users relative to a Rashomon set of models for explainability

Apple

Career Experience: Production Engineer

Cupertino, CA

Jul 2023 – Nov 2023

- Tested and deployed demo content to channel stores across iOS, tvOS, watchOS, and macOS platforms from development to production.
- Developed, maintained, and documented sophisticated automation frameworks, using Python scripting to enhance operational efficiency.
- Resolved failing Wi-Fi connectivity across demo devices by investigating plist data structures for discrepancies; resolved publishing content issues for by region and device.
- Validated content in twenty-one languages across twenty-five locales sensitive to local content and language requirements while crafting comprehensive test plans and technical documentation for new features and internal tools.

PRESENTATIONS AND PUBLICATIONS

Presentations

- **Quigley, Daniel** (2024). *Be Reasonable! Relating Logical Models and Vector Spaces for NLP Interpretability*. Workshop in General Linguistics.
- **Quigley, Daniel** (2024). *Getting Started with \LaTeX* . Workshop in General Linguistics.
- **Quigley, Daniel** (2024). *Merge: Syntax-Semantics as a Hopf Algebra*. Algebraic Structures Seminar.
- **Quigley, Daniel** (2024). *Natural Language Understanding as Tensor Product Models*. Algebraic Structures Seminar.
- **Quigley, Daniel** (2024). *A Primer on the Mathematics of Artificial Neural Networks*. Graduate Student Colloquium.
- **Quigley, Daniel** (2023). *Tensor Space and Category-Theoretic Semantics for Resolving Long-Distance Linguistic Expressions in Natural Language Processing*. PhD preliminary paper and presentation.
- **Quigley, Daniel** (2023). *Decoding Authorial Style, Tone, and Mood in Poetic Translations through Natural Language Processing: An Analysis of Beowulf*. Workshop in General Linguistics.
- **Quigley, Daniel** (2023). *\LaTeX for Linguists*. Summer Workshop.

Publications

- **Quigley, Daniel** (2024). *Be Reasonable! Relating Logical Models and Vector Spaces for NLP Interpretability*. In Proceedings: Workshop in General Linguistics.
- **Quigley, Daniel** (2023). *Exploring Category-Theoretic Morphisms for Model-Theoretic Semantics*. Manuscript submitted for review.
- **Quigley, Daniel** (2023). *Decoding Authorial Style, Tone, and Mood in Poetic Translations through Natural Language Processing: An Analysis of Beowulf*. In Proceedings: Workshop in General Linguistics.

PROJECT EXPERIENCE

University of Wisconsin-Milwaukee

L^AT_EX Developer

Milwaukee, WI

Aug 2020 – Current

- Designed L^AT_EX document templates, accepted by university as official resources for graduate school.
- Created document tagging and readability methods to improve designs of accessible PDF documents.
- Developing intelligent UIs for improved accessibility of PDF documents, improving usability for users with accessibility needs and machine readability.

University of Wisconsin-Madison

Data Visualization and Sentiment Analysis of Movie Reviews across Four Neural Network Models

Milwaukee, WI

May 2021

- Conducted a comprehensive comparison of performance metrics for polarity sentiment analysis of movie reviews using deep learning techniques, including the design of four different machine learning architectures (CNN, RNN, RCNN, LSTM).
- Compared the performance of the different model architectures across ten epochs, with a cutoff for validation loss, and achieved an accuracy rate of greater than 83% for each model.
- Demonstrated expertise in the application of deep learning techniques to natural language processing tasks through the successful execution and analysis of this research project.

University of Wisconsin-Madison

ML Optimization: No Free Lunch

Milwaukee, WI

May 2021

- Optimized, evaluated, and compared performance scores for classification machine learning tasks: Decision Tree Classifier; K-Nearest Neighbor; Multinomial Naive Bayes; Logistic Regression; SVC; Dummy Classifier; Neural Network.
- Optimized, evaluated, and compared performance scores for regression machine learning tasks: Decision Tree Regressor; Linear Regression; SVR; Dummy Regressor; Neural Network.
- Evaluated CNN architectures of image classification task using the Fashion-MNIST dataset.

University of Wisconsin-Madison

Linux from Scratch

Milwaukee, WI

Jul 2020

- Completed *Linux from Scratch* project, building a fully functional Linux distribution from scratch using source code and following project documentation, demonstrating strong problem-solving and troubleshooting skills to resolve issues during build process.
- Developed deep understanding of Linux operating system, including kernel, system libraries, and userland utilities, and improved skills in working with source code and building software from ground up.
- Created a customized Linux distribution that met specific needs and preferences, showcasing ability to tailor a system to meet unique requirements.

WORK EXPERIENCE

Apple

Genius Technician

Glendale, WI

Oct 2021 – March 2024

- Demonstrated leadership while also mentoring Technical Specialists and Technical Experts | developed and implemented new processes to improve efficiency and effectiveness of Genius Bar team.
- Exceeded expectations for customer satisfaction: attained performance review scores of 88 TMS and 74 NPS, excelling in metrics for technical expertise (89) and empathy (80).
- Certified for iPhone and Mac repair, maintaining 95% repair rate on devices.

University of Wisconsin-Milwaukee

Instructor of Record

Milwaukee, WI

Aug 2020 – Present

- Responsible for class sizes of 20-30 students per semester, providing comprehensive support and guidance.
- Designed course content to include topics in natural language processing, such as introductory concepts and artificial intelligence ethics.
- Providing effective feedback and communication to improve performance, demonstrating commitment to student success and learning.

GRADUATE TEACHING EXPERIENCE

Linguistics 210: *Teaching Assistant*

Fall 2020

Linguistics 210: *Teaching Assistant*

Spring 2021

Linguistics 210: *Instructor of Record*

Fall 2021

Linguistics 210: *Instructor of Record*

Spring 2022

Linguistics 100: *Instructor of Record*

Fall 2022

Linguistics 210: *Instructor of Record*

Spring 2023

Linguistics 100: *Instructor of Record*

Fall 2023

Linguistics 100: *Instructor of Record*

Spring 2024

GRADUATE COURSEWORK

Linguistics: Phonetics | Phonology | Morphology | Syntax | Semantics | 2nd Language Acquisition | Seminar: Ellipsis | Typology and Universals | Historical and Comparative Linguistics | Seminar: Research Methods | Seminar: Double Object Constructions | Advanced Phonetics | Advanced Phonology | Advanced Syntax | Advanced Semantics | Foundations of Formal Logic | Advanced Independent Study

Computer Science: Machine Learning and Applications | Introduction to Natural Language Processing | Introduction to Artificial Intelligence | Artificial Intelligence in Business | Advanced Independent Study | Advanced Machine Learning | Algorithm Design and Analysis

Physics: Quantum Field Theory | Statistical Field Theory | General Relativity | String Theory | Field Theory in Particle Physics | Cosmology | Radiative Processes | High Energy Astrophysics

Mathematics: Differential Geometry | Geometric Partial Differential Equations | Mathematical Methods in Theoretical Physics | Algebraic Structures

PROFESSIONAL INTERESTS

Linguistics: formal logic | mathematical models | model theory | ellipsis | double object constructions | transitivity mismatches | case stacking | construction grammar | scope | binding | degree and comparison | typology | language change

Computer Science: algorithm design | complexity | formal logic | mathematical models | model theory | machine learning methods for language processing | human language technologies | human-computer interaction

Artificial Intelligence: neural networks | natural language processing | explainable artificial intelligence | geometric neural networks | graph neural networks

Physics: gravitational physics | black hole physics | early universe physics | topological defects | quantum field theory in curved spacetime | inverse problem for Lagrangians

Mathematics: category theory | group theory | differential geometry | geometric PDEs | geometric flows | Ricci flow | operator theory | formal logic | model theory

Anthropology: writing | calendrical systems | power and social relations | gender | ethnoarchaeology | archaeoastronomy

PROFESSIONAL AFFILIATIONS

American Mathematical Society (AMS)

American Physical Society (APS)

Association for Computational Linguistics (ACL)

Association for the Advancement of Artificial Intelligence (AAAI)

Language Creation Society (LCS)

Linguistic Society of America (LSA)

HONORS AND AWARDS

University of Wisconsin-Milwaukee: *Graduate Teaching Assistantship* Aug 2020 – Current

University of Wisconsin-Milwaukee: *Chancellor's Graduate Student Award* 2020, 2023

Universiteit Utrecht: *Graduate Honors* 2019

University of Wisconsin-Madison: *Record - Number of Majors (5)* 2018

SKILLS

Data skills: Technical writing | Data collection, annotation, processing, visualization, statistical analysis, machine learning (Python: NumPy, Keras, Scikit-Learn, NLTK, Pandas, Matplotlib, TensorFlow, Mathematica) | Technical documentation

Project skills: Written and oral presentation and communication | Qualitative and quantitative research methods | Problem solving | Experiment design | Language data collection and analysis | Team work and team leadership

Technical skills: Python | \LaTeX | Excel | Praat | R | SPSS | regex | SQL (basic) | HTML (basic) | Jekyll (basic)

Operating Systems and Software: Linux | Windows | MacOS | Conda | CUDA (GPU Programming) | MS Office Suite

LANGUAGES

Native: English

Conversational: German

Elementary: Dutch | Finnish | Japanese

Some Study: Menominee | Arabic (MSA) | Sanskrit | Georgian
